

Hélder A. Santos obtained his MSc in Chemistry from the Department of Chemistry, University of Porto (Portugal) in 2003. In 2007, he obtained his Ph.D. in Chem. Eng. from Helsinki University of Technology (Finland, now named Aalto University). In 2007, Dr. Santos joined the University of Helsinki, Division of Pharmaceutical Technology, as a Postdoctoral Fellow. In 2009, he was appointed Academy of Finland Postdoctoral Research Fellow. Currently, he is Associate Professor in Pharmaceutical Nanotechnology, and Principal Investigator/Group Leader at the Division of Pharmaceutical Chemistry and Technology, University of Helsinki. He is also the Director of the Doctoral Programme in Drug Research (2018-2021) and the co-founder of Capsamedix Oy start-up company.

His research interests are focused on development of nanobiomaterials, including nanoporous silica/silicon materials, liposomes and solid lipid nanoparticles for controlled drug delivery, diagnostics and therapy.
