

JOB OFFER FOR A SCIENTIFIC PROJECT MANAGER AT SMART VITAMINS

Smart Vitamins is a biopharma preclinical-stage spin-off company from the laboratory of Professor María José Alonso, worldwide leader in Nanomedicine, at the University of Santiago de Compostela (USC), in Northwest Spain. Smart Vitamins pursues to transform the treatment paradigm for autoimmune diseases by creating innovative therapies for the prevention and treatment of autoimmune and inflammatory diseases.

We are looking for a Scientific Project Manager to work in the development of a potential new COVID-19 therapy in collaboration with a highly stimulating European Consortium.

Valuable requirements:

- PhD in an appropriate discipline (Biochemistry, Pharmacy, Biology, Biomedical Engineering...).
- Experience working in the formulation of active ingredients using nanotechnology.
- Experience in cell culture.
- Understanding of the drug development process in Pharma/Biopharma.
- Working knowledge of ICH Guidelines and FDA/EMA regulatory requirements.
- Prepare and deliver presentations and minutes as required.
- Participate in implementing improvements to the project management processes to ensure efficiency across the R&D organization.
- Excellent writing and presentation skills.
- Upper-intermediate level of English or higher.

Previous experience working in industry will be highly acknowledged.

Location: Santiago de Compostela, Spain.

Salary Range: 30.000 € - 36.000 €

To apply, please send your CV and cover letter to: pgb@smartvitamins.org
